VISITORS RESPIRATORY ILLNESS GUIDANCE

✓ Wash your hands before entering and when leaving the patient room. If you are wearing gloves, you must remove them and wash your hands before leaving the room.

✓ Please do not wear gloves or protective gowns through the hallways.

✓ If you have COVID respiratory symptoms, CDC recommends you stay home and away from others.

✓ If you have COVID, CDC recommends you wear a mask in public for 10 days after the symptoms have started.

✓ If you have COVID or other respiratory symptoms, and need to visit a patient, CDC recommends you must be fever free for at least 24 hours without medications.

✓ Visiting a COVID patient or respiratory isolation patient? You must always wear a mask in the patient room. Please see the nurse for guidance.

✓ Visiting a COVID patient or you have COVID? You must remain in the patient's room. Please do not roam the hospital. Use the call bell for assistance.

Please keep our staff, patients, and other visitors safe.
